MEMORANDUM FOR: Chief, Management Support Staff, OLC

VIA: Director of Logistics

FROM:

Chief, Supply Division, OL

SUBJECT: Testimony by the Director of Logistics
Before the Senate Government Affairs
Subcommittee on Federal Spending
Practices and Open Government

REFERENCE: Memo dtd 14 Jun 79 to C/MSS/OLC fm C/SD/OL,
same subject (OL 9 2372)

1. I apologize for having to suggest yet another change to the subject testimony, but I believe one additional modification is desirable. Specifically, subparagraph 4.b. following the comma should read as follows: "... and Art Metal safes, to varying degrees, failed to meet the required Federal specifications in these areas." The reason for this change is that while Art Metal safes rarely ever meet the personnel safety requirements of the specification, we cannot make the same statement regarding their security features. We can document only one area where they failed to meet the security requirements, i.e., the failure of the control door to close properly.

2. I appreciate your patience in this matter.
